

Electro Polish Quality Wire

*Delivering Stainless,
Aluminum and
Nickel Solutions*

Domestic Mill Producer and Distributor of TriBrite™ EPQ Wire

Tri Star Metals is a major domestic mill producer and stocking distributor of Electro Polish Quality (EPQ) wire and your only source for TriBrite™.

Tri Star Metals offers North America's largest inventory of ready to ship EPQ wire and we offer same day shipments in most sizes. We also have an extensive inventory of raw material which gives us the ability to produce your special orders with short lead times. Our commitment to inventory coupled with our short lead time ensures that your order will be on time...every time.

At Tri Star Metals, we're committed to providing you with more than quality products. Our added value is in our customer service. Our highly trained sales professionals are available when you need them. This is just one of the many reasons you can rely on us to continue to exceed your expectations and demands.
