Tri Star Metals, LLC Receives Accreditation for AS9100C

PRI Registrar recognizes Tri Star Metals, LLC for its commitment to continual improvement in their management system.

Tri Star Metals, LLC announces that it has received accreditation for AS9100C. Tri Star Metals, LLC manufactures, sells and distributes stainless steel, aluminum, nickel and specialty alloys. They are a unique hybrid, a multi-location service organization supported by their own domestic cold finishing mill. They leverage the strengths of their global mill partners, key alliances with specialized producers, and the capabilities of the Freeport manufacturing site to give customers the right product for their specific application. Tri Star offers engineered products supported by their national organization of sales and metallurgical professionals. Jay Mandel, President and CEO stated, "Receiving our AS9100 certification opens the door for Tri Star to leverage its strengths to pursue aerospace and defense business suited to our unique manufacturing and distribution capabilities. We have worked tirelessly to achieve this accreditation and it is a testimony to our strong team at Tri Star Metals."

Tri Star Metals, LLC received accreditation for demonstrating their ongoing commitment to quality by satisfying customer requirements and industry specifications and has demonstrated its commitment to world class quality implementing and becoming certified to the AS9100 standard. "They have joined an elite number of organizations worldwide who have achieved certification to this globally recognized quality standard," said Randy Daugharthy, Director of the Registrar Program at the Performance Review Institute Registrar. "PRI Registrar is proud to partner with Tri Star Metals in this accomplishment and look forward to continued support of their objective of quality excellence."
